

## Press Release

# Logista Adds More Than 100 Units of the New Volvo FH Aero Model to Fleet

***The company reaffirms its commitment to a more sustainable and efficient transport sector by reducing CO<sub>2</sub> emissions and meeting the growing market demands, particularly in the management of long-distance and full-load transport***

Madrid, February 18, 2025

Logista, a leading distributor of products and services for points of sale in Europe, has taken another step forward in its commitment to sustainability and innovation by integrating 110 Volvo FH Aero vehicles into its fleet. This positions Logista as a benchmark in efficient transport, highlighting its leadership in the transition toward more responsible logistics.

The Volvo FH Aero model is designed to optimize fuel consumption and significantly reduce carbon dioxide emissions thanks to its aerodynamic design. It is also equipped with advanced technological innovations, such as the CMS (Camera Monitor System), a camera-based rearview mirror system that enhances driver safety and comfort.

Moreover, the acquisition of Volvo FH Aero units enhances Logista's ability to meet market demands, particularly in the management of long-distance and full-load transport. At the 2025 Premios Nacionales de Transporte (National Transport Awards in Spain), this model was recognized as "Truck of the Year."

*"With the integration of these trucks into our fleet, we take another significant step toward achieving the goal of all Logista companies: keeping pace with technological innovation in a sustainable and efficient manner,"* says **Federico Rella**, Vice President and Corporate Affairs Director of Logista Italia.

### About Logista

Logista is one of Europe's largest logistics operators, specializing in the distribution of products and services to proximity channels. It regularly serves nearly 200,000 points of sale across Spain, France, Italy, Portugal, the Netherlands, Belgium, and Poland, offering the fastest and most efficient market access for a wide range of products, including convenience items, pharmaceuticals, electronic recharges, books, publications, tobacco, and lotteries. It also operates Spain's largest transport network, certified for food safety.

Logista relies on a team of highly qualified professionals, with over 8,000 direct employees and numerous partners, including Nacex affiliates, Logista Parcel delegates, drivers, and more. Employees and collaborators work together to provide clients with the most efficient and tailored service possible.

In Italy, Logista has built one of the largest logistics and commercial proximity networks and is recognized as an efficient and neutral partner. With over 90 warehouses, it supplies 60,000 points of sale, ensuring an annual tax revenue of approximately €15 billion for the state.

## Commitment to Sustainability

For eight consecutive years, Logista has maintained its position as a leader in the CDP, which recognizes global leaders in the fight against climate change. It is the only European logistics company to have been included in this category during this period.

Additionally, in May 2024, Sustainalytics—one of the world’s leading ESG (Environmental, Social, and Governance) risk rating agencies—awarded Logista an ESG risk rating of 16.5 points, classifying it as Low Risk for financial impacts due to ESG factors. Logista was also recognized as “Industry TOP RATED 2024”, ranking among the top 50 companies in the transportation sector worldwide.

Thanks to its strong corporate social responsibility efforts, Logista secured an MSCI rating of “A” in 2024, on a scale from AAA to CCC. The company also participated in the S&P Corporate Sustainability Assessment (CSA) and was recognized by the Financial Times in February 2024 as a “Diversity Leader.” In April 2024, Ecovadis awarded Logista a Bronze Medal for its sustainability performance.

Logista is also part of the FTSE4Good IBEX index, which includes companies demonstrating strong environmental, social, and governance (ESG) practices, as well as the Ibex Gender Equality index. In 2022, Logista joined the Ibex 35.
